

KPMG Performance & Technology is looking for a

Manager Business Effectiveness/Procurement

Job Description

KPMG is one of the world's leading international networks of service organisations in the fields of Audit, Tax, Advisory and Accounting, with more than 137,000 professionals spread over 750 cities in 144 countries worldwide.

In Belgium, we employ more than 950 people, spread over six offices: Brussels, Antwerp, Ghent, Hasselt, Liège and Louvain-la-Neuve. KPMG is one of the three biggest networks in its field in Western Europe.

The Performance & Technology practice works with its clients on a broad range of business issues including financial management, risk management and operational transformation. Our aim is simple: to be regarded by the market as the best advisors, trusted by our clients and the envy of our competitors.

In order to cope with the expansion of the department **Business Effectiveness**, we are currently looking for a **(Senior) Manager Procurement**.

Within this role you will help our clients to enhance their operational efficiency and effectiveness, reduce operating costs, increase revenue and better manage their business assets. You will do this through advising our clients on **sourcing, procurement** and **supply chain management**. Furthermore you'll actively participate in the development of the practice by helping to acquire projects and developing business.

Your Profile

- You hold a university degree and you have acquired 5 to 8 years of relevant experience in one or more of the following area's:
 - Sourcing & Procurement
 - Sales & Operations Planning
 - Supply Chain Process Optimization
- An APICS and/or Six Sigma certificate is an asset.
- You have excellent networking skills and commercial talents in acquiring projects in by preference large corporate clients. Project management skills are essential as well.
- You have an advanced level in Dutch, French & English.

We offer

Our aim is to attract and retain the best by creating an environment where our people can learn, progress, be fulfilled and successful in their chosen advisory career.

In the Performance & Technology team, you will be working with clients across a variety of industry segments to identify and help them to realise value within their business. This may involve working on business strategy, identifying new markets, streamlining processes, improving customer service and managing complex change.
